Tasks Breakdown Chart

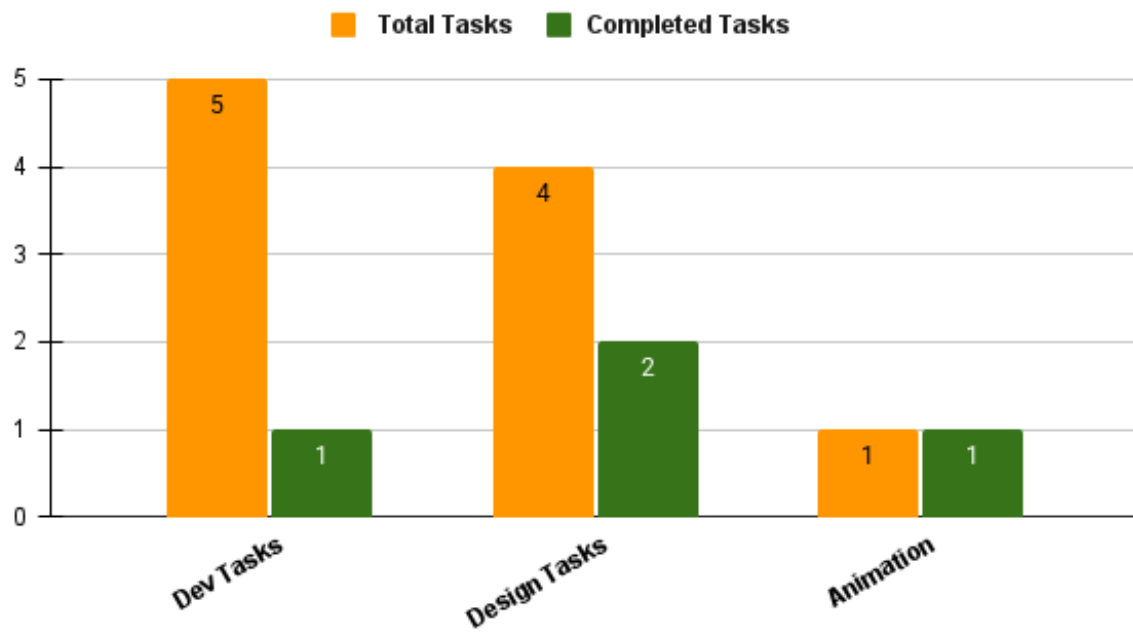

5. Team Capacity & Velocity

Planned: 13 items

Completed: 4 items

Team Velocity for this sprint: ~30% completion rate.

Velocity Chart

6. Key Deliverables

1. Coming Soon Development Page
2. Logo Animation
3. Hero Section Design
4. Home Page About Section Design

7. Blockers / Issues

1. Overestimation of tasks within the sprint capacity.
2. Limited resources available for backend and development.
3. Deployment challenges impacted progress.
4. SEO and favicon-related issues required extra attention.

8. Definition of Done (DoD)

1. Design meets agreed acceptance criteria.
2. Code is implemented, reviewed, and tested.
3. Features are integrated into the system without breaking existing functionality.
4. Deployed successfully in the test environment.
5. QA signoff received for the deployed codes.
6. Documentation updated where applicable.

9. Retrospective Insights

1. Need to improve estimation practices to better match team capacity.
2. Earlier identification of resource constraints is required.

10. Action Items / Next Steps

1. Work on MVP and hold the proposed fullstack system.
2. Ensure SEO and metadata issues are addressed during development.
